

FIVA WORLD MOTORCYCLE RUN 2018 HUNGARY

Date: 2018.06.21.-2018.06.24.

The route:

Hungary is an agriculture country, but we are having beautiful hills up to 1000 m where the motorcycle will easy enjoy the beautiful roads.

During the event our federation wish to present the history of the Hungarian motorcycle production (Pannonia, Csepel, Meray etc...) in various cities which will be visible during the event in museums and privat collections of course with fantastic gastronomic places as well.

The start and finish is close to our capital Budapest. Each day the milages are between 120-150km.

Budget: not yet 100% fix but we keep the suggested 400-450 EUR

The highlite of the event will be the possibility to drive on the famous 5 km speed track of „Gyóni Beton” where from 1934 several speed records were broken and International level was one of the most important speed track in Europe.

Many international motorcyclist like Brough Superior with his JAP motorcycle drove on this road.

We are extremly lucky that until today this road exist and in the last 80 years did not happened any changes and the event can drive on this historical very important track.

Unfortunately a motorcyclist Eric Fernihough after several speed records lost his life here. Remembering and honoring this tragical day with the help of two fantastic person (here you should mention you and Eric please) we are preparing a life remembering surprise for the participants, which we hope we can see together.

It is very important to mention that one of the biggest JAWA museum will be visited during the event also.

The hungarian hospitality the famous Gulyas soup and the motorcycle enthusiast waiting every participant next year in Hungary.

On-line registration will be possible very soon on FIVA website and the event website also www.mavamsz.hu

Any registration per e-mail can be sent to Laszlo@alfadigital.hu also.
